

Facility Relocation Feasibility

"...site is comprised of 138 acres with ponds, recreation options and uniquely aesthetic building interiors."

Basking Ridge Feasibility Study examined potential hospital relocation for Morristown Memorial hospital. In addition to building systems analysis, assessing site compatibility with overall hospital functions, & future expansion objectives, a focused effort was devoted to capacity fit-out for a 1100 bed scheme.

This impressive site comprised of 138 acres with ponds, recreation options and uniquely aesthetic building interiors served as the former Bell Atlantic east-coast headquarters - an immense 1.3 million square footage facility.

Project Team

- Buckl Architects
- Francis Coffman Foley Hoffman
- PWI Engineering
- DiStacio VanBuren

Project Area

- 1,298,201 sf - Existing
- 400,013 sf - Potential Expansion
- 1,698,214 - Total

Completion Date

2004
